MEL Indicator Snap-Pack (Health, Education, Gender/WEE, Climate/WASH)

10 well-formed sample indicators per sector with definitions, denominators, disaggregations, and common pitfalls—ready to adapt for proposals, M&E plans, and dashboards.

Health

Indicator	Denominator	Disaggregation	Notes / Pitfalls
Full Immunisation Coverage Children 12–23 months fully immunised	Children 12–23 months	Sex, district, wealth	Check card vs recall; verify schedule changes.
ANC 4+ Visits Women 15–49 with a live birth in last 2y who received ≥4 ANC visits	Women 15–49 with live birth (last 2y)	Age, parity, caste, district	Self-report bias; facility records cross-check.
Institutional Delivery Births in health facilities (public/private)	All live births (reference period)	Facility type, district, caste	Misclassification; exclude in-transit births carefully.
PNC within 48h (mother) Mothers receiving PNC within 48h of delivery	All recent births	Place of delivery, distance, caste	Home deliveries may be under-recorded.

Indicator	Denominator	Disaggregation	Notes / Pitfalls
PNC within 48h (newborn) Newborns receiving PNC within 48h	All live births	Birth weight, complications	Define PNC provider type explicitly.
Modern Contraceptive Prevalence Rate Women 15–49 currently using a modern method	Women 15–49 (non-pregnant)	Marital status, age group, parity	Misreporting; ensure consistent method list.
Under-5 Stunting Children 0–59 months with HAZ < −2	Children 0–59 months measured	Sex, age band, district	Measurement protocol; flags for implausible values.
Under-5 Wasting Children 0–59 months with WHZ < −2	Children 0–59 months measured	Sex, age band, district	Seasonality; acute illness confounding.
Under-5 Underweight Children 0–59 months with WAZ < −2	Children 0–59 months measured	Sex, age band, district	Scale calibration; clothing adjustment.
Hypertension Control Adults 30–79 with BP controlled among those diagnosed	Adults 30–79 diagnosed with HTN	Sex, district, SES	Use last two readings; device validation.

Education

Indicator	Denominator	Disaggregation	Notes / Pitfalls
Net Enrolment Rate (Primary) Children of official primary age enrolled in	Population of official primary age	Sex, district, rural/urban	Age-grade mismatch; admin under/overcounts.

Indicator	Denominator	Disaggregation	Notes / Pitfalls
primary			
Attendance (Last 7 Days) Students attending school at least one day in last week	Enrolled students (surveyed)	Sex, grade, district	Seasonality (harvest/exams); proxy response.
Grade-Level Reading Grade X students reading Grade X text	Students tested	Sex, school mgmt, district	Tool equivalence across languages.
Grade-Level Arithmetic Grade X students doing Grade X arithmetic	Students tested	Sex, school mgmt, district	Test drift; coaching center effects.
Transition Rate (Primary→Upper) Students advancing from primary to upper primary	Students completing primary	Sex, district, CWSN	Private transfers; cohort tracking accuracy.
PTR (Primary) Pupil-Teacher Ratio (primary)	Total pupils / total teachers	Mgmt, district	Part-time/contract teacher handling.
Toilet Functionality Schools with separate, functional girls' toilets	All schools	Mgmt, district	Functionality criteria must be explicit.
Electricity Availability Schools with reliable electricity	All schools	Mgmt, district	Reliability definition; self-report vs meter.
Digital Access Schools with functional computer lab or tablets	All schools	Mgmt, district	Obsolete/broken devices counting.
Out-of-School Rate Children (6–14) not in school	Children 6–14	Sex, district, disability	Migrant kids; seasonal work bias.

Gender / WEE

Indicator	Denominator	Disaggregation	Notes / Pitfalls
Female Labour Force Participation (usual status) Women 15+ in labour force (employed/unemployed)	Women 15+	Age band, marital status, rural/urban	Unpaid family work recognition; coding consistency.
Earnings Parity Median women's earnings / men's earnings	Workers with reported earnings	Sector, contract type	Skew from high earners; winsorise if needed.
Asset Ownership (Any) Women 18+ who own land/house (alone or jointly)	Women 18+	Marital status, state, caste	Documentation vs de facto ownership.
Decision-Making Autonomy Women 18–49 participating in key HH decisions	Women 18–49	Marital status, wealth, location	Question framing differences; interviewer effects.
Mobile Phone Ownership Women 15+ who personally own a mobile phone	Women 15+	Age, rural/urban	Shared devices misclassification.
Account Ownership Women 15+ with bank account in own name	Women 15+	Age, rural/urban	Dormant vs active accounts.
Enterprise Ownership (Women-led) Firms with women as majority owners	Registered firms/respondents	Sector, size band	Registration bias; informal firms missing.

Indicator	Denominator	Disaggregation	Notes / Pitfalls
Time Use – Unpaid Care (hrs/day) Avg hours/day in unpaid care	Women 15+	Life-stage, rural/urban	Diary vs recall differences.
Digital Payments Use Women 15+ who made/received digital payments in last 3m	Women 15+	Education, income	Interviewer prompting; cash preference bias.
GBV Helpline Reach Calls to GBV helplines per 100k women	Women population 100k	State/district	Reporting bias; duplicate callers.

Climate / WASH

Indicator	Denominator	Disaggregation	Notes / Pitfalls
Safe Drinking Water Households with improved water source on premises	All households	Rural/urban, wealth quintile	Continuous supply vs intermittent; seasonality.
Sanitation – Safely Managed Households with safely managed sanitation	All households	Rural/urban, wealth quintile	Emptying/disposal verification gaps.
Handwashing Facility with Soap HH with place for handwashing with water & soap	All households	Rural/urban, wealth quintile	Observed vs reported availability.
Flood Exposure (12m) Households experiencing flood in last 12 months	All households	District/block	Recall window accuracy; define flood event.

Indicator	Denominator	Disaggregation	Notes / Pitfalls
Heat Stress Days Days >35°C WBGT (or local threshold) in season	District-level days	Season, district	Consistent data source + period.
Irrigation Reliability Farm plots with reliable irrigation across season	Cultivated plots	Crop type, district	Self-assessment vs flow data.
Crop Loss (Weather-related) HH reporting weather-related crop loss (season)	Cultivator households	Crop, district	Insurance claim overlap; double counting.
Clean Cooking Access HH using clean fuels/tech for cooking	All households	Wealth, rural/urban	Stacked fuel use complexity.
PM2.5 Annual Mean Annual mean PM2.5 (µg/m³)	District/City areas	Location type	Comparable monitoring sources, satellite vs ground.
Open Defecation Individuals practicing open defecation	Population or HH members	Wealth, location	Observation vs self-report; social desirability bias.
